DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8 allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: None of the cited references alone or in combination teach the claimed "wherein cards removed from the staging area to the delivery shoe are moved in the **same order** by which cards were removed from the first set of cards and moved to the card staging area".

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 9-27 are rejected under 35 U.S.C. 102(b) as being anticipated by McCrea Jr..

The Applicant is referred to the teaching of McCrea, Jr. 334' in the first Office action.

The Applicant has argued that McCrea Jr. 334' does not read cards before they are moved into the card delivery area. Also McCrea or Verschoor does not have a card suit or rank reader. McCrea in-feed area 1604 receives a vertical first set of cards 93a. Fig. 16 clearly shows a card 1410b being delivered from the vertical first set of cards 93a to a card staging area or buffer 16a. Between the vertical first set of cards 93a and

Art Unit: 3711

the card staging area 16a is a sensor 1660. McCrea Jr. 334' recites "sensor 1660 senses (such as optically) the delivery of a card 1410B which delivers a signal over lines 1662 to the camera 1610 thereby indicating to the camera 1610 the image source it is recording. Hence when the signals are detected by sensors 1660 and delivered over line 1662 to the camera 1610, **the camera is recording optical images of inserted cards 93a**", see col. 16, lines 1-6. McCrea Jr. 334' also recites that these optical images identify the card in "the region of the upper-left and lower-right corners of the card. For example and as illustrated in Fig. 3, a 3 of Diamonds in such corners contains the value = the number 3 and the suit = the diamond shaped region 320", col. 15, lines 8-13. Thus, McCrea Jr. 334' card delivery shoe reads the card suit and rank before the card moves to into the card delivery area.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

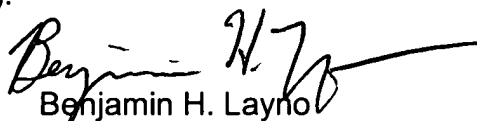

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
